Not present: Schultz

The Pacific Beach Community Planning Committee has recommended approval of this project.

**CITY MANAGER SUPPORTING INFORMATION:**

The 24,883 square foot project site is currently vacant and fenced off. In the past, the site had been used as an open commercial parking lot, not tied to or containing required parking for any surrounding development. Surrounding the project site are predominately commercial land uses with some mixed-use. The project site is located at 924-936 Hornblend Street, on the north side of Hornblend just south of Garnet Avenue, between Cass Street and Bayard Street, within the CC-4-2 Zone, Coastal (non-appealable) Overlay Zone, Coastal Height Limit Overlay Zone, Beach Parking Impact Overlay Zone and within the Pacific Beach Community Plan Area. The proposed grading, construction, and subdivision all constitute, by definition, Coastal Development, which pursuant to the Land Development Code (Section 126.0702) requires a Coastal Development Permit. A Tentative Map is required, by the Land Development Code (Section 144.0202), for the proposed consolidation of the seven existing lots into a one lot subdivision for 24 condominium units. The applicant requested the Planned Development Permit in order that the project design can be reviewed for conformance as a transit-oriented development, which would allow for the increased residential density of up to 43 dwelling units per acre.

**FISCAL IMPACT:**

None.
